Submitted values are:

Name: [REDACTED]

Email Address: [REDACTED]

Comment: I grew up at [REDACTED], attended Carrolton elementary and then onto Pattonville, grandparents on [REDACTED] and in Maryland Heights, and I played at the Bridgeton Muni Athletic Complex throughout my childhood. I have an aunt and uncle that in recent years have died of cancer. I have had two abnormal pregnancies; a tubular pregnancy and a trophoblastic disease, which is so rare that it only occurs with 1 out of a 1000 American women and my OB/Gyn's have never heard of this disease. I suffer from chronic migraines and vestibular disorder. I believe that the only moral and ethical treatment of this radioactive waste is to completely remove it from it's current location and to only move it to a location where no one can be affected by it as my family and friends have been.
